

High quality finishes for Glass decoration

Materials that meet
your aesthetic aspirations,
performance demands
and budget realities.

Innovating beautiful yet practical
products that meet the diverse needs
of designers, architects, building owners
and operators, contractors
and other professionals.

Every surface becomes a potential project in which you can use
3M AMD solutions to refurbish and redesign the space.

Elegance and versatility, to manage space with style

Glass means transparency, brightness, lightness, freshness and elegance. It is an essential element in building design such as offices, showrooms and shopping malls. It can be used as communication media, it can be decorated, it can be used to separate public and private spaces, it can be processed to ensure a more comfortable space.

3M Glass Decorative films are perfect for privacy and decorative applications on glass and windows. The ideal solution to give a touch of elegance and originality to the glass surfaces of malls, shops, restaurants, offices, hotels, wellness, spas.

Whilst every effort has been made to give an accurate representation for each product, due to some limitations of the photographic process, we recommend you to request a sample to support selection.

Our Solutions

3M offers a wide range of creative options for decorating glass with surprising effects that can be customised as required, to suit the tastes of each customer. In addition to providing a high-quality end result, these films are easy to adapt, apply and maintain.

Durability

3M expertise in adhesives ensures of fast, accurate, beautiful and durable application to a variety of glass substrates.

Flexibility

Perfect for indoor or outdoor application. Works on flat or curved surfaces. The material itself is amazingly flexible and easy to apply. Product can be removed and reapplied if brands or design changes.

Budget-friendly

You get the beauty, translucency and privacy of etched, cut, sandblasted or texturized decorative glass at a fraction of the price.

Applying Fasara and Crystal glass finishes directly to glass saves time and money, and makes the project go fast and easy. It can be applied on-site with little or no business downtime.

Application area's

The areas of use of 3M Glass Decorative Films are unlimited:

- Offices, banks and agencies
- Shopping malls, shop windows and showrooms
- Hotels, restaurants, bars and other public places
- Wellness, spa centers and verandas

The films can be applied on glass door, glass wardrobe, mirror, lobby, staircase, windows, partitions...

Fasara Linen

More than 50 patterns,
Unlimited Creativity

3M™ Fasara™ Glass Decorative Films

3M Fasara Glass Decorative Films is a range of high quality films made of durable polyester with a decorative matte surface, perfect for privacy and decorative applications on glass and windows. Its application is quick, simple and direct, and does not require removal or transfer of the existing glass for pre-fitting preparation. Ideal for elegant screening of conference rooms, waiting rooms, glass partitions. In addition to a striking visual effect, 3M Fasara ensure the safety of glass, holding the fragments in case of accidental breakage and reduces up to 99% UV radiation. They are available in more than 50 different designs, with different light transmission and reflection.

The Subtlety of Gradations

3M Fasara - Gradation patterns

These 3M Fasara films transition from fully opaque white to clear over the full roll width, thanks to a varying density of pixels.

Perfect for areas where you need high level light but total privacy.

Some of them can be combined together to create unique visual effects.

Fasara Luce

3M Fasara - Frost & Mat patterns

These patterns are designed to break up the light and give a very soft warm feel to interiors and exteriors. The frosted patterns recreate with efficiency the aspect of a frosted glass. They partially or totally obscure the view but allow light transmission. The Mat Crystal 2 and Milky Crystal patterns have been developed for exterior applications.

3M™ Scotchcal™ Dusted/Frosted Crystal Film Series 7725-300

Long-lasting translucent films, to create the effect of traditional dusted (acid-etched look) or frosted (sandblasted look) glass, neutral or coloured. These films provide excellent uniformity of colour under transmitted or reflected light. They can be used indoor and outdoor. They provide the ability to create complex designs or lettering using the electronic cutting technology. Ideal for corporate identity needs and long term applications.
